# Fascias, Soffits and Guttering

Is your guttering looking a little tired and in need of some TLC? Britelite can install Fascias, Soffits, Guttering and Cladding, all designed to give your home a complete makeover.

Made in the UK and manufactured from window grade uPVC to the highest standards, our products live longer and withstand the ever changing British weather much better than wooden counterparts, no rot, no peel; just wipe-clean, easy-to-maintain uPVC.

Whatever the state of play with your fascias, soffits and guttering, Britelite can help. We supply and install a range of roofline products to match almost any shape or style of your home. Our essential roofline components come in a number of colours, styles and optional extras including bird and wasp protection.

## No rot, no peel, just wipe-clean and easy-to-maintain

Fascias and soffits protect the eaves of your roof from water and nesting animals. uPVC will not rot, and does not require painting or high maintenance.

### **Fascia**

The Fascia is a uPVC board that runs along the lower edge of the roof, it caps the ends of the rafters outside and is used to hold up the guttering.

### **Soffit**

The Soffit also a uPVC board that bridges the gap between the the house wall and the Fascia. This is available in plain or vented.

### **Guttering**

Guttering directs the rain water away from your home and drains it away. Older guttering systems might not be able to withstand the added weight of water and can become a hazard if they begin to separate from the roof and start to fall off. If this is already happening to your gutters, it might be too late to make a quick repair and a new guttering system might be required.

# Cladding

Not only does Britelite cladding give your home a stunning new finish and attractive makeover, it also acts as a protective second skin to your home.

Cladding helps to ensure that your roof stays weather and climate proof, so that the interior of your home stays dry and cosy. With Britelite's unbeatable uPVC, longlife and easy to maintain features, you can be sure that your cladding will look new for years to come, regardless of what the elements throw at it.

Britelite's Cladding also comes in a range of finishes from standard white to wood effect. You can be sure that we have the right look for you and your home.
