Ultrasky Flat Skylight

The Ultrasky Flat Skylight provides an element of style to extension and orangery roofs and floods natural light into the room below. Its distinctive sleek, frameless edge to edge glass gives a stunning contemporary look and allows the largest possible amount of light into the room.

Sitting flush with the internal plasterboard, the Ultrasky Flat Skylight looks frameless from the inside, giving the room a bright open roof feel. The fully insulated frame with 'Warm Frame' technology combined with noise reducing glass means that Ultrasky Flat Skylight blocks out noise from the outside and is unrivalled in thermal efficiency.

Fully insulated frame with **'Warm Frame'** technology

Features

1. Edge to Edge glass for a contemporary look.
2. Fineline plasterboard trim for a neat internal finish.
3. Slim aluminium surround blends seamlessly with glass.
4. Fully insulated frame with Warm Frame technology.
5. Click-fit clips for great fitting first time, every time.
6. Noise reducing glass reduces noise by up to 34dB.
7. Double seal gaskets with high compression, so seal won't degrade over time.

- ✓ Distinctive Frameless Glass
- ✓ Fully insulated core
- ✓ Unique click-fit installation
- ✓ Noise reducing glass
- ✓ Overall U-value of 1.2

Warmest

Fully insulated core

- Fully insulated frame with Warm Frame technology
- Overall U-value of 1.2

Customisable

Product Specification

Sizes

The Ultrasky Flat Skylight is designed around maximum uninterrupted sight lines and is available in a number of square or rectangular sizes ranging from 600mm x 600mm and going up to 2500mm in length (dependent on dimensions).

Colour Options

Externally available in Black RAL 9005 at 60% gloss, White RAL 9003 at 80% gloss and Grey RAL 7016 at 30% gloss for a great look on any build. Bespoke colours available on request.

Glazing

The highly thermally efficient glazing will help reduce heat loss and noise pollution, whilst letting the maximum amount of light enter your room. **Glass outer layer** – 6mm Toughened Opti Neutral / 16mm Argon filled cavity with warm edge spacer.

Glass inner layer – 4mm or 6mm (size of skylight dependent) high performance low E toughened.

- Glass U-value 1.0.
- Glass G-value 0.5.
- Noise reducing capabilities up to 34dB.

Kerb

The **optional kerb** has a chambered construction for superior thermal performance and rigidity and contains self aligning internal reinforcement to attach the flat skylight. The kerb is welded to be watertight. It's optimal 4 degree pitch has been set for:

- Glass U-value 1.0.
- Glass G-value 0.5.
- Noise reducing capabilities up to 34dB.

Edge to Edge Glazing

For maximum sightlines and the feel of an open roof.

Ultimate Thermal Performance

Overall U-value 1.2 W/m²K.
