Britelite

Windows, Conservatories & Flat Roofs

www.britelitewindows.co.uk

Introduction

Britelite have been fitting quality Windows, Doors and Conservatories throughout the South East for over 50 Years.

Britelite fit high quality double glazing and the next generation triple glazing, using only the best materials. Fully guaranteed for up to 10 years, Britelite products will save you money by reducing your energy consumption and require minimal maintenance.

Last year, our customers trusted us to install 18,046 windows and 309 conservatories in the South East alone. We're also proud to say that in 2014 Britelite was granted the prestigious **Which? Trusted trader** status, in recognition of our outstanding commitment to quality and service in the home improvement sector.

Since 1970 we have installed literally hundreds of thousands of windows throughout the South of England and we believe our triple 'A' rated service is simply the finest available.

Britelite Reviews

Every customer review and testimonial is important to us, and they are personally read by our Chairman Dominic Baxter.

John Baxter and his partner, Arthur Clacy founded Britelite Windows in 1970 and set themselves the target of offering the finest products at value for money prices.

Sadly Arthur passed away in 1982, and John Baxter in 2021, but we are certain they would still be proud of the company they created together.

So if you are considering any of our Home Improvement products, please come and visit one of our superb Show Centres or visit our website for a free instant online quotation.

Britelite Accreditations

We are proud to belong to the **Glass & Glazing Federation** (www.ggf.co.uk), the industry's largest and most respected trade organisation. All installations are registered with **FENSA** and all customers receive Britelite's own up to ten year insurance backed guarantee, issued by a company famous for 50 years.

Britelite is registered with **Trustmark**, the award winning government scheme that aims to help you find a reliable and trustworthy company to make improvements to your home.

Double Glazing

Quality, **security** & durability

All Britelite uPVC windows are installed to meet the highest standards.

Britelite windows are available in a wide range of colours, styles and finishes. They also do a fantastic job of keeping the warmth in and unwanted intruders out. In fact, as far as windows go, you'd be

hard-pressed to find something better, which is probably why over 95% of our customers who expressed an opinion either rated us as 'good' or 'very good'.

Energy efficient A+ rated windows

When considering purchasing replacement windows for your home, the question of energy efficiency must be paramount.

You can be assured that Britelite has considered this a key aspect of our window design. Our standard windows all have an A+ rating, which is achieved by the combination of low energy glass, multi chamber construction of the frame and warm edge spacer bars.

Triple Glazing

The ultimate in energy efficiency

Why choose Triple Glazing?

Our exciting range of uPVC triple glazed windows are beautiful and provide even more thermal efficiency and security than our double glazed units.

Triple glazed windows are available in a variety of styles, colours and woodgrain finishes to suit your home and add value. You can choose superior thermal insulation and security in any frame of your choice. Every energy efficient window we install is fully guaranteed for up to 10 years.

Why choose Triple Glazing?

- ✓ It can save you money on your heating bills each year
- ✓ It adds value to your home
- ✓ It can aid in noise reduction
- ✓ It reduces your carbon footprint

Triple Glazing: It's warmer, it's quieter and it looks great!

Britelite's triple glazed windows are engineered to give you a comfortable home. We use only the best materials, components and techniques to ensure your home is draught-free and warm.

Our windows can reduce condensation by as much as 80% to prevent bacterial growth and mould forming on your windows, which can compound respiratory problems such as asthma.

Triple glazing also cuts down noise from outside your home.

80% LESS
CONDENSATION

NOISE
REDUCTION

Britelite's triple glazing is made up of three panes of glass giving a thermal energy rating of A++ as opposed to our standard double glazing which is rated as A+.

The double argon filled cavities throw radiated heat back into your home, meaning you can save money on your heating bills!

Triple Glazing Security

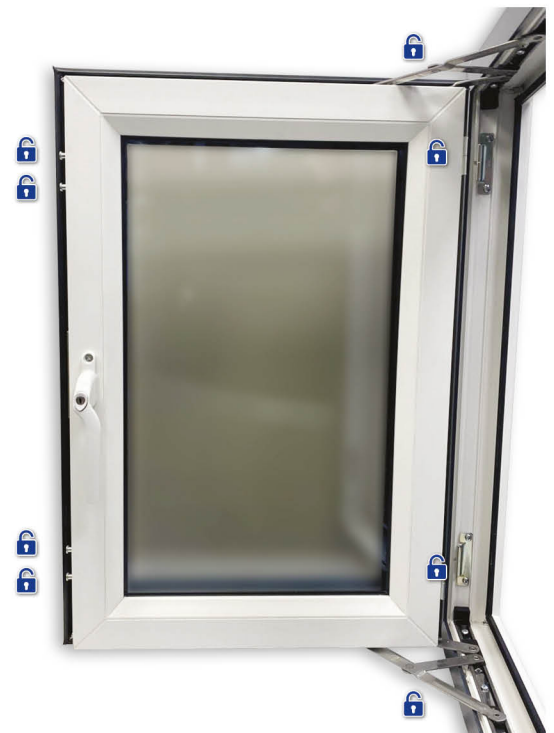

Britelite triple glazed windows also feature a Yale 8 point locking system and come with a £1,000 anti-intrusion cover guarantee*, giving you peace of mind that your home is secure.

They are internally beaded which means the glass can only be removed from inside the home, making it extremely difficult for intruders to enter your home.

Our windows have been tested to the highest security standards so you can rest assured that your family and possessions are protected.

8 Point Yale Locking System

8 Point Yale Locking System as Standard, offering your home security where it's needed for years to come.

* See our website for details.

Secure by Design

Secured By Design Upgrade Option

If security and protection of your home is a key consideration when replacing Windows and Doors then you need the official police approved, Secured by Design specification.

Secured by Design (SBD) is the official police security initiative that works to improve the security of buildings and their immediate surroundings to provide safe places to live, work, shop and visit.

SBD's product based accreditation scheme – the Police Preferred Specification - provides a recognised standard for all security products that can deter and reduce crime.

Britelite are proud to hold the Secured by Design accreditation.

Discover Peace of Mind

At Britelite we're proud to bring performance, peace of mind and aesthetics together in perfect harmony. It's an approach that's allowed us to develop the most secure, robust window and doors in the industry, and it's an approach that ensures you can add it to your home for less.

Ready to Secure Your Home?

Simply get in touch with our dedicated team and we'll tell you everything you need to know about adding the Secured By Design Window to your home today.

Secured by Design

Police Preferred Specification

SBD is the only way for companies to obtain police recognition for security-related products in the UK.

Residence 7 & 9 Windows

Britelite's beautiful traditional double and triple glazed windows are perfect for any homeowner looking for luxury and high end windows to complete their home.

Designed to replicate the 19th Century flush timber window and manufactured from modern composite material, our traditional window range is ideal for use in conservation areas. Ideal for village and modern properties, our windows will enhance any home.

Traditional windows outperform many other window systems due to the combination of sophisticated design, innovation and technological advancements.

You can choose from highly efficient double or triple glazed units, attaining U-values of 0.8 with triple glazing, PassivHaus Standard, and 1.2 with double glazing, far surpassing the British Building Regulation requirements. All off this contributes to lower energy bills, keeping you cosy in the winter and cool in the summer.

Verandas and Pergolas

If you choose an Aluminium Veranda from Britelite, you choose great value and quality.

Britelite luxury aluminium verandas

Enjoying the outdoors throughout the year with indoor-style comfort with our luxurious aluminium verandas and glassrooms.

With an aluminium veranda, you'll add a stylish extension to your home. In addition, aluminium is very solid, weather proof and requires little maintenance.

We use carefully selected and high quality aluminium, in which you can choose from the following colours: Black, Cream, White and Grey.

There are also many extra options and accessories possible, depending on your taste and preferences.

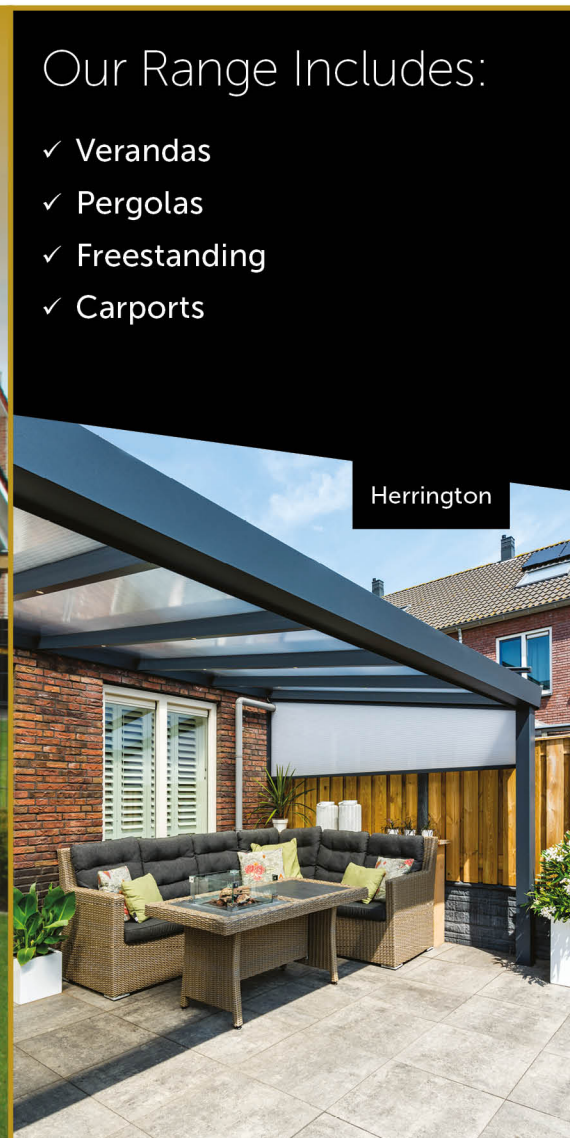

Choose between the Stratford, Herrington, Lancaster, Buxton, Bridgewood, Ruxley & Ruxley Supreme.

Aluminium Windows

Are you looking for **luxury** and high end windows to complete your home?

Aluminium Windows

Britelite's amazing aluminium window frames are incredibly durable and highly resistant to corrosion. Ideal as an alternative to our uPVC windows, aluminium windows can be fitted to a range of properties from small terraced houses to high-end custom homes.

All our aluminium windows are custom made to fit your home. Choose from a range of glazing options and frame styles to match your homes individual characteristics.

Peace-of-mind

Aluminium casement windows include a multi point shoot-bolt locking system and full weather testing to achieve the highest levels of performance. All profiles incorporate polyamide barriers to meet the latest building regulations required of U Values and energy ratings. As with all Britelite windows our aluminium windows are custom made to fit your home and are an ideal alternative to our uPVC windows.

Britelite Aluminium windows are available as...

- ✓ Casement Windows
- ✓ Tilt & Turn Windows
- ✓ Bay Windows

Sliding Sash

Windows can say a lot about a home, a change of frame style or **decorative glass** can make the world of difference.

Sliding Sash Windows

Britelite offer a comprehensive range of Sliding Sash Windows, All of our frames and sashes are multi-chambered, using the power of air as an insulator to stop warmth escaping. Our sash windows come with 24mm double glazed units as standard achieving an energy rating of 'A' as standard a u-value as low as 1.4W/m²K.

With fuel prices constantly on the rise, thermal performance is crucial. The window frames are built to last and to resist the ever-changing conditions the British weather throws at them without losing their immaculate appearance. An innovative dedicated weather bar adds another level of defence against rainwater; a feature unique to this type of window.

Our sash windows deliver the most advanced levels of security without adding complex operation. They are practical and come with all the safety features you need.

Colour Choices

Secondary Glazing

For many Listed building owners, or people who live in conservation areas, warmth and noise reduction can be a real issue. You can rest assured that Britelite's secondary glazing will significantly improve both aspects.

Our Secondary Glazing is strong, reliable and long-lasting. By installing Secondary glazing you are creating an insulating layer of air which will retain the heat. Combine this with low-E glass and you could reduce heat loss by as much as 65%.

Triple "A" rated company

As a triple 'A' rated company, Britelite possesses, as you would expect, a variety of accreditations for the installation of windows and doors.

Furthermore, we also guarantee the quality of the products we install for up to 10 years, proving that Britelite products are manufactured and installed to the highest specification.

Front Doors

A warm welcome every time

A Britelite front door is the most beautiful way of welcoming you home.

A Britelite front door is the most beautiful way of welcoming you home. It's secure, it stands up to the test of time and it's available in a range of finishes.

Choose from a wide range of colours, designs, glass styles and security options to custom build a door that best suits your home. We install a wide variety of front doors, and we can even fit a super secure door that doesn't require a key.

Britelite Luxe Timber Core Door

Britelite are proud to offer our Luxe Timber Core Door which is made from sixteen layers of laminated veneered timber called Kerto®. This ensures the grain is not running in one direction. The grain direction can sometimes be a weak point of timber and can lead to warping, or splitting. By using a specially orientated layup of sixteen veneers, the grain is running in multiple directions ensuring the Kerto® core has significantly increased strength, rigidity, and vast improved security.

Bonded to this are two robust coloured PVCu skins that offer a realistic wood grain effect in a range of colours.

The door comes complete with a sculptured frame (Chamfered is available on request) in a choice of twenty two coloured foils as well as plain white or cream. There is also the option of a 57mm low PVCu threshold instead of the normal 77mm as well as a 24mm aluminium which can also have wheelchair ramps fitted.

Our Range Includes:

- ✓ Luxe Timber Core
- ✓ uPVC
- ✓ Composite

Composite Doors

We don't believe in compromising on quality. We've brought together materials to give you the very best in strength, easy maintenance, security and weather resistance... oh, and great looks as well.

Behind the rather scientific-sounding name, you'll find the latest technology and design in our doors. And when you're indoors you'll enjoy style, strength and security.

Our composite doors have a foam core which is 44mm thick compared to conventional uPVC panel doors at 28mm. It has a super-strong structural frame and up-to-the-minute hardware making our composite door even more secure. Its glass reinforced plastic finish means you'll be secure in all weathers, and you will enjoy its great looks for years to come.

How your door looks is up to you. Whether traditional or contemporary, you can choose from a variety of colours.

uPVC Panel Doors

Britelite offers a range of uPVC entrance doors in white, rosewood and golden oak to suit your home. Security is key, and all Britelite doors feature three dead bolts and a hook lock to keep your home secure.

Our doors will also keep the cost of your heating bills down, providing excellent insulation during the cold winter months. In fact, we are so sure of the quality and efficiency of our doors, they all come with an insurance backed 10-year guarantee.

French, Patio & Bi-fold Doors

Superb performance, refined & **captivating design**, technology & aesthetics.

What better way to open up your house to the outdoors than by fitting a new french, patio or bi-folding door? Britelite offers a range of door styles that fit in with your home's existing style and space.

French Doors

For beauty and convenience, traditional French doors are a popular option, which can also be fitted with sidelights for wider openings.

Britelite **French, Patio & Bi-fold door styles** are available in:

- ✓ uPVC
- ✓ Aluminium

Patio Doors

Few features of a home can match the panoramic view provided by patio doors. Integrate them into your home and relish in a stunning new perspective. Our patio doors are available in a wide variety of styles and opening options.

Bi-folding Doors

Bi-folding doors are a stunning addition to our product range. They glide smoothly which creates extra room for entertaining and bringing the outdoors in. Unlike ordinary patio or french doors, a bi-folding door gives you about a 90% clear opening.

Our folding doors can open into the room or out into the garden - whatever your individual requirements. Depending on the width of your opening, our bi-folds have between 2 and 6 panels, with each folding panel up to 1.2 metres in width, thus creating the maximum clear opening possible.

LUXE
DELUXE SLIDING & BI-FOLD DOORS

Please visit our website to find out more about our different styles of door www.britelitewindows.co.uk

Conservatories

The perfect way to add **extra space** to your home.

Conservatories are perhaps the most popular way of adding more space, and are just perfect at bridging the gap between your home and garden.

Britelite conservatories are designed to suit your home. We offer a range of designs and styles from Sun lounge to more elegant Victorian and Edwardian conservatories.

Want something a little more bespoke? That's no problem either, we can design custom conservatories that take the best elements from each style to make a space that is perfect for you.

With energy efficient glazing and easy-clean glass available, as well as a range of colours and finishes for the doors and windows, the sky really is the limit.

Our Range Includes:

- ✓ uPVC
- ✓ Aluminium

Victorian

The classical design of a Britelite Victorian conservatory enhances virtually any style of property. The steeply pitched roof gives a feeling of space allowing maximum light into your conservatory regardless of the season.

Edwardian

A Britelite Edwardian style is a rectangular, contemporary conservatory suitable for the majority of properties.

Lean To

A Britelite Lean To conservatory is an attractive extension to your property with its pitched roof design giving you the maximum possible floor space.

Combination

We are able to combine conservatory styles, and tailor the design to your specific needs.

Our design consultant will offer a unique design, tailored exactly to your needs.

With the extra space available, you can use your Britelite conservatory for many purposes, even to house a luxurious swimming pool!

Glass Extensions

Truly stylish and **beautiful extension** designs

Our Styles

Glass Extensions are more than just a conservatory, they are a truly stylish and beautiful extension to your home that creates a 'real room' feel.

Take the hassle out of building a new extension, as they don't usually require planning permission, so you can enjoy your beautiful new room sooner than you expect.

Loggia

A unique design concept born out of the decadence and architectural beauty of the Renaissance period, the stunning Britelite Loggia is available in a number of finishes, and has under floor heating and air conditioning as optional extras.

The Loggia's strength and durability is second-to-none. At around 40% cheaper than an orangery as well as being incredibly well insulated.

The Britelite Loggia will add extra space to your home.

Britelite Glass Extensions will:

- ✓ Refresh your living space
- ✓ Suitable for use all year round
- ✓ Enhance your property
- ✓ Thermally efficient

LivinROOF

Stylish and **thermally efficient** rooms

The LivinROOF

The LivinROOF is the first roofing system designed to give you the flexibility to seamlessly combine solid and glazed roofing. It helps you extend your living space and enhance thermal performance, to give you a room that you can use all year round.

Whether you are constructing a new living space or replacing an old existing conservatory roof, the LivinROOF can give you total design flexibility and the ability to create stylish and thermally efficient rooms like no other solution on the market.

UltraRoof 380 Tiled Conservatory Roof

The UltraRoof 380 is a lightweight tiled roofing system that creates a beautiful vaulted plastered ceiling inside and include a stunning tiled finish to the exterior. Not only that, you can also have full glazed panels to allow the natural light in.

Available in three colours: carbon grey, harvest brown and terra brick, the UltraRoof 380 tiled conservatory roof replacement is lightweight, looks outstanding and provides incredible thermal performance.

Fascias, Soffits, Guttering & Cladding

No rot, no peel, just wipe-clean and **easy-to-maintain**

Fascia, soffits and other roofline products may go unnoticed, however they are the finishing touch to your home. Britelite's fascias, soffits and guttering protect the roof space and rafters that would otherwise be exposed to the elements.

Our uPVC range of products are low maintenance and long lasting.

Fascia facts

When buying fascia products you should ensure that the quotations you receive are 'like for like' this refers to both specification and installation.

Many less reputable companies use products that clad over existing fascias. Britelite will always replace your existing fascias unless you instruct us otherwise.

Britelite **Roofline** products benefit from the following:

- ✓ No rot
- ✓ No peel
- ✓ Wipe-clean easy-to-maintain

Appearance

Our essential roofline components come in a number of colours, styles and with optional extras, including vented soffits, Bird and Wasp Protection.

Flat Roofing

A stylish **high performance** solution, that will keep the water out of your property for good.

A Britelite GRP flat roofing system that's built to last. Synoseal is a BBA certified product and comes with a guarantee of up to 30 years. With a wide range of colours and finishes, Britelite's Flat Roofing is the finest roofing system money can buy. It is only fitted by our trained and approved installers.

We provide a free of charge survey and quotation for almost any project of any size. All of our workmanship is guaranteed so you can have complete peace of mind.

Benefits of a Britelite GRP Flat Roof replacement:

- ✓ Completely seamless
- ✓ Fully reinforced
- ✓ Easy to maintain
- ✓ Guaranteed for up to 30 years

GRP Flat Roof

Our installer will strip your roof right back to the joists if necessary and fix on new OSB3 18mm decking with or without insulation in the build up. Pre-formed GRP edge trims are fitted to finish the sides, then our installers lay a hard wearing, heavy duty (600gsm) Britelite GRP matting onto the surface, as standard.

Once laid, we will apply our Synoseal resin to bond and waterproof the roof. Then once cured, our team then coats the roof with Britelite high performance GRP roofing top coat. All of our Flat Roofing is fire retardant and completely UV resistant and comes in many different colour combinations as well as specialist finishes.

Flat Rooflight

Give a home extension more light with the Britelite Flat Rooflight.

Creating the illusion of open roof space, the minimalistic external and internal sightlines create a sleek, modern appearance and provide a stunning addition to any home extension.

Thanks to Britelites unique aluminium external and internal capping, with a bespoke structural PVCu internal core, it is not only attractive, but also the best double glazed thermal performing flat rooflight on the market. Our rooflight is designed to throw maximum light into any home.

Roof Lanterns

Britelite Roof Lanterns are a perfect solution for a new build, a traditional orangery, an extension, or can be inserted into a new Britelite Flat Roof to help give you the feeling of light and space.

Whether your new living space is for a dining room, kitchen, living room, bedroom or bathroom, the Britelite lantern collection is a perfect, elegant solution for your home.

The lanterns will enhance any home – traditional or modern. Its strong ridge reduces the need for multiple bars, allowing you to achieve the maximum glass area which lets light flood into your room.

Green Roof

Britelite's Flat Roofing can be turned in to a totally bespoke green roof based exactly on your requirements.

You can also opt for one of our low maintenance sedum green roofs. As well as creating a naturally beautiful area, Britelite green roofs add sound insulation and deliver energy savings.
