Introduction

Why should you choose a Luxe Timber Core Door over a standard door?

GRP versus Luxe Timber Core Door

GRP

A typical foam filled GRP construction has only a small section of the door which is actually solid. The door is made up from two Glass Reinforced Plastic skins bonded to a sub frame which is then filled with high density foam. The Gel coated GRP skins which are bonded to the frame are vulnerable to scratching and not easily repaired if dented.

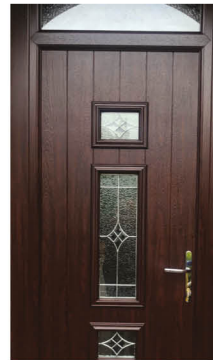

Britelite Luxe Timber Core Door

The Britelite Luxe Timber Core Door is made from sixteen layers of laminated veneered timber called Kerto®. This ensures the grain is not running in one direction. The grain direction can sometimes be a weak point of timber and can lead to warping, or splitting. By using a specially orientated layout of sixteen veneers, the grain is running in multiple directions ensuring the Kerto® core has significantly increased strength, rigidity, and vast improved security.

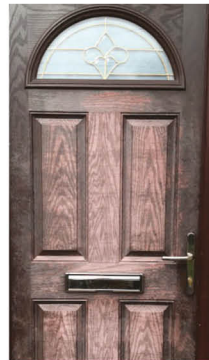

Bonded to this are two robust coloured PVCu skins that offer a realistic wood grain effect in a range of colours.

The door comes complete with a sculptured frame (Chamfered is available on request) in a choice of twenty two coloured foils as well as plain white or cream. There is also the option of a 57mm low PVCu threshold instead of the normal 77mm as well as a 24mm aluminium which can also have wheelchair ramps fitted.

Timber is naturally renewable and our Timber is purchased from sustainable managed forests and can be recycled at the end of its useful life and not destined for land fill.

Rosewood Solid Door

Faded GRP Door

High quality security hardware

Luxe Auto-Lock

Luxe Auto-Lock features 4 "auto-fire" independently operating 20mm security dead-bolts.

As each "auto-fire" dead-bolt strikes the roller enhanced security keep it automatically throws and engages into the keep to weatherproof the door. This "auto-fire" function also removes the requirement of lifting the handle to operate the lock. It then only requires the turning of the key or thumb-turn to securely lock the door.

APECS

AP Cylinder 3* Sold Secure Diamond

5 Keys, Anti-Bump, Anti-Pick, Anti-Drill, Anti-Saw, Anti-Snap, Plug Extraction Protection & Key Secure.

Sweet

Furniture - 10 Year Corrosion Guarantee

Our upgraded range of contemporary furniture has been designed to confound burglars with its unique rounded design. It also carries a 10 year anti-corrosion guarantee.

Secure by Design*

Enhanced Security

With a few simple additions such as laminated glass, door chain and a spyhole our doors can achieve Secure by Design, which is the police preferred specification.

*Optional Upgrade

Door Finishes

Textured

A textured woodgrain finish embossed into the door design provides a timber relief onto the surface of the door. This is the standard finish on our range of traditional doors.

Grained

A grained finish with a slightly imprinted "tic" to emulate the same effect on the glazing cassettes and door frame. This is available on our contemporary doors.

Door Styles

The Clumber

With its Georgian grill option this design is ideal for traditional properties and its large glazed area will flood light into any darkened room or hallway. Also a range of glass designs are available and if used as a traditional clear glazed back door an integral blind is also available when privacy is required.

ALSO AVAILABLE AS:
FRENCH DOOR

Door Styles

The Contemporary Range

This range of door style have been designed to meet the continued requests for modern minimalistic designs that utilise the flat grained finish. This finish emulates the foiled door frame and glazing cassette to achieve uncompromising style and design. A range of simple glass designs complement this modern range of door styles.

The Abbey

With its simple clean lines this contemporary door lends itself to modern homes with its choice of a solid or glazed design.

Suited to the auto latching lock which offers the choice of a central or heritage position finger pull escutcheon or simple lines.

They can also be matched with one of our bar handles to keep that contemporary styling or for simplicity it can still be used with the traditional lock and lever / lever handles.

Locks

Luxe Auto-Lock

Luxe Auto-Lock features 4 "auto-fire" independently operating 20mm security dead-bolts.

As each "auto-fire" dead-bolt strikes the roller enhanced security keep it automatically throws and engages into the keep to weatherproof the door. This "auto-fire" function also removes the requirement of lifting the handle to operate the lock. It then only requires the turning of the key or thumb-turn to securely lock the door.

GU Security Automatic

This is a Slam Shut Lock. The spindle is situated at 960mm from the bottom of the slab giving you the extra choice of a standard positioned handle using a slam lock. Fully adjustable composite keeps with edge protection.

With 3 deadbolts and centre latch this is a PAS23/24 tested lock and Secured By Design registered. This is used on our FD30 doors in conjunction with a fire testing certificate.

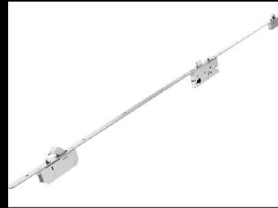

Winkhaus Heritage

This is a Slam Shut Lock.

The aesthetics of a traditional rim latch, but incorporating the latest high security multipoint lock which activates automatically once the door is shut. Comprises of 2 antipush back Hooks with centre latch and deadbolt.

The cylinder measures is approx. 590mm from the top of the slab.

Yale Conexis

This is a Smart Lock which can be used with most 92mm centred multi point door locks. Say goodbye to keys with the Conexis. You can send mobile keys to family and friends to be able to access a home for a few hours or weeks.

Configure, control and unlock your Smart Door Lock from your smartphone via the secure Bluetooth app alternatively use a key card or key tag to open your door.

Hinges

Solid Core Adjustable Hinge

This is a Face Fix hinge for ease of installation. This hinge automatically sets the correct compression so no need for adjustment. The hinge allows adjustment to be made horizontally and vertically to +/-2.5mm. Easily removable cover. A very Slimline heavy duty hinge.
